

Product Data Sheet

PowerPlus 102+

Product Description

PowerPlus 102+ is a new generation, high performance, high octane petrol formulated to exceed existing fuels available at the pump in Australia. With a RON of over 102 **PowerPlus 102+** ensures optimum engine efficiency, improved engine responsiveness and a cleaner burn to become the fuel of choice for high performance and high compression engines.

Benefits

The advanced cleansing properties of **PowerPlus 102+** reduce built up carbon deposits on inlet valves and automatically cleans the fuel injector and carburettor systems. This results in better combustion, better driveability better fuel economy and less maintenance.

TEST	UNIT	TYPICAL	METHOD
Octane Number - Research (RON)		Higher than 102	ASTM D2699
Colour		Yellow	Typical
Appearance		Clear & Bright	Visual
Density @ 15°C	kg/L	Report	ASTM D4052
Sulphur - total	mg/kg	Less than 50	ASTM D1266
Aromatics	% vol	Less than 42	ASTM D5580
Benzene	% vol	Less than 1.0	ASTM D3606

Please note: Where engines require the use of leaded petrol to protect valve seats, a valve seat recession additive should be used. **PowerPlus 102+** is not for use in aviation applications.
Do not store in fibreglass tanks or containers.
